Camp Fire Girls Report Success In Candy Sale

"Success" is the wonderful feeling enjoyed by the Harbor District Camp Fire candy sellers upon learning that the 260,000 units of candy, set as a 1961 goal for the Los Angeles Area Council were sold in the Candy Sale event just ended. This successful feeling was doubled upon learning that the Harbor District enjoyed the distinction of being the first district in the Council to achieve their individual goal and top it!

Jim Davis, Harbor District candy chairman, reports that this has been the most successful sale in recent years for the Harbor District in conjunction with the Los Angeles Area Council. Davis said the new product, assorted chocolate creams, met with enthusiastic reception throughout the district and augmented their sale of the traditional chocolate covered mints.

Candy Sale profits will meet individual group needs for expenses in connection with the Camp Fire program. These expenses include such items as service projects, craft materials, service costume, and camp fees.

The sale is also providing funds for needed improvements at Camp Yallani, the Council's resident summer camp, and for the operating budget of the Los Angeles Area Council.

President Gets New Smog Term

Supervisor Kenneth Hahn today announced the re-appointment of Carl J. Hoffman, president, Harbor District Chambers of Commerce, to a two year term as a member of the Emergency Action Committee of the Air Pollution Control District.

The Emergency Action Committee was established by the Board of Supervisors to advise on steps necessary for controlling of industry and traffic in the event of smog conditions reaching the second alert stage. Members of the Committee are on call at all times for this purpose.

Consisting of seven members, the Committee is composed of two scientists, a licensed physician, two representatives of the public at large, and representatives of industry and law enforcement.

Hoffman, who has been active in the fight against smog for many years as well as in many other civic activities in the south and southwestern section of the County, is one of the representatives of the public at large.

Lesson-Sermon

The mental nature of fatigue will be explained at Christian Science services in the Lesson-Sermon on "God the Preserver of Man." The Golden Text is from Joshua (1:9), "Be strong and of a good courage; be not afraid, neither be thou dismayed; for the Lord thy God is with thee whithersoever thou goest."

Isaiah's comforting assurance of divine strength as recorded in the Scriptures, declares, "They that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; they shall walk, and not faint" (40:31).

In correlative citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," Mary Baker Eddy affirms, "The scientific and permanent remedy for fatigue is to learn the power of Mind over the body."
